Good afternoon,

If my memory serves me correctly, at the council meeting when council denied Aragon's request for a variance regarding the setbacks for the new wing to the hotel, staff explained that.....if the variance is denied, Aragon would have to confirm to the regulated setbacks.

Apparently not! I visited the municipal hall today and was told differently.

In my opinion, this variance is far to close to the property line. The required setback without the variance is 3.0 metres. I strongly feel that this should be respected as this tall building borders on a one story home.
