Development Permit Variance Application
Lot 1 & Lot 2 Building
Setbacks

April 7, 2025

ARAGON

[illegible]

ARAGON

The proposed set back variance between Lot 1 and Lot 2 is required due to accommodations made on site to retain existing landscape and mature trees. Retaining walls were aligned within conformance of the required soils as to not disturb root retention of existing trees. Retaining walls were slightly altered with relation to the original proposed survey lines. As the proposed new lot line impacts the building separation to the lot line, the Development Permit Variance is requested to record as built site conditions.

New survey drawings have been Prepared to reflect the original Lot areas and the overall FAR.

(To note they reflect below allowable Bylaw requirements.)

Building Setbacks	Proposed	Permitted
Front Lot Line	7.62m	7.5m
North Lot Line	6.18m	4.5m
Southern Lot Line	4.62m	4.5m
Site A / Site B shared lot line	0.82m/1.08m*	3.5m

* Request setback variance for Section 67.71 (18)(a)

Lot 1 (Site A)	
Building #	Building Area (Sq.m)
Rosemead	611.02
Inn Wing	214.39
Total Building Area	825.41
Lot 1 Area	5070
