6. PUBLIC INPUT ON AGENDA ITEMS 7, 8, AND 9

Item 8.1) Rezoning Application - 903 Admirals Rd, Staff Report No. [DEV-25-051](#)

Hugh Ferguson, resident, spoke in favour of the application as the location is appropriate and there are other townhouses nearby.

Robert MacIsaac, resident, supported the application as it will provide additional housing and is consistent with the neighbourhood's aesthetic.

Jim Morrison, resident, expressed general support for the application, but noted that tree removal and rock blasting may have impacts on neighbours which need to be mitigated.

Dr. Cam Harris, non-resident, spoke in support of the application as it effectively provides housing through infill without changing the characteristics

of the neighbourhood, and brings additional housing units.

Greg Rapski, resident, spoke in support of the application as the height and townhouse style is appropriate for the neighbourhood, and aligned with the parcel's designation in the Official Community Plan (OCP). The location is well-suited for density given its proximity to transit routes, active transportation infrastructure, major employers, schools, and recreation facilities. The design is livable, and the green spaces and parking are appealing.

Andrew Holenchuk, resident, expressed support for the proposal due to its provision of family oriented three-bedroom units which will be more affordable for families than comparable single-family homes, and its proximity to CFB Esquimalt, transit, and shopping. The project will fit in with neighbouring townhouses, and is aligned with the Townhouse Residential OCP designation. The applicant's efforts to retain and replace trees are also appreciated.
