I have a item on the agenda for Mondaymand as one of my neighbours had been away I did not get their signature - they are now back and attached is the final copy = Richard is away and did not know who to send it to...

Meagan and Steven Brame have gone to the following doors to seek written support for the boulevard alteration planned for the boulevard at 442 Grafton St.

The plan is to remove the current plants on the portion of the boulevard from the Douglas Firs down and replace with some river rock and grasses and reuse the current larger rocks and small statue that currently are there. We are doing this to make it follow a similar theme as the other side of our driveway. The slope of this boulevard makes it hard to maintain that section and this is an easier option for maintenance.
