Dear Mayor and Council:

I'm writing to provide my support that the sign regulation bylaw be amended to allow for the Esquimalt Mural Festival to be considered a community beautification program, and for the proposed murals to be allowed at the United Church and the parking lot of Tudor House.

Public art can help make neighbourhoods feel more welcoming and walkable. It can connect and make our communities safer by creating opportunities for conversations and gathering. And it can generate economic activity by drawing tourists and residents from across the municipality, the CRD and elsewhere to see the art.

One of the most talked about pieces of public art in Esquimalt in my social circles are the murals along the E&N rail trail. The splash of colour and even their sometimes controversial nature is a draw to the community and a conversation piece for anyone using this space.

I look forward to seeing more of it through the festival and on the United Church and Tudor House properties.

Sincerely,

Ryan Jabs | President, Community Builder

Subject: Please add to Residents wanting to increase height on backyard fences

Hi Anja, please add us to upcoming Council meeting re increasing fence heights for backyards.

Chris and I have been property owners in Esquimalt for 18 years. We concur with the other residents re increasing fence height - we would like to request that it be raised from 7-9 feet. Over the course of 18 years we have had deer jump our existing 6 foot backyard fence and consume our plants in the backyard. We always beautify our property for our community's enjoyment but are finding it more difficult and costly to maintain this. We would like to repair our existing fence but would like to better understand whether council will be increasing the fence height prior to incurring a substantial bill. Please advise.

Regards,

Chris Fraser and Natalia Lebedynsky
910 Inskip Street
