Dear Resident,

Re: Parking Restriction – Bryden Court

The Township is experiencing difficulty in maneuvering the waste collection truck down your road. This situation is being created due to the road geometry and parking in critical areas. The critical area on your street is the (bend at 625 Bryden Court). In order to provide sufficient maneuvering room the proposed solution is to introduce a parking restriction at this location. This parking restriction can take one of two forms:

- 1. All time parking restriction along the frontage of (625 Bryden Court)**
- 2. Limited time parking restriction along the frontage of (625 BrydenCourt)**

The difference in these restrictions is that limited time parking would only see parking restricted along the proposed location from 7 am to 5 pm Monday to Friday. The all time parking restriction would restrict parking in this location for all times of the day and each day of the week.

Please review these options and provide your feedback to Engineering by **May 16, 2016**. Your response will be reviewed and factored into the decision making process.

Feedback can be mailed, submitted in person to the Engineering Department at the Municipal Hall, 3rd Floor or emailed to engineering@esquimalt.ca.

If you have any questions, please submit them to the email address above or call 250-414-7108.

Your assistance is appreciated.

Jeff W. Miller, P. Eng.
Director of Engineering and Public Works
