I am deeply annoyed and disappointed that inspection of said development was not undertaken. I am not a land owner, however, I live in Gorge Pointe and feel sorry for the residents of abutting properties for having their privacy encroached and infringed upon by the reduction of space the development building has produced. I can only hope all parties are compensated adequately.

It is another example of "build it and ask forgiveness later". It could have been prevented by overseeing the site survey at the very beginning of construction.
