Hi Barb,

Thanks for replying to my letter.

I think reviewing rec center hours of operation is a great idea.

Another item that I had read about somewhere is proposed new EV stations. Is this really a must-have right now?

I'm thinking along the lines of what are necessities for living vs. what are extras that could wait or should be scrapped for the time being.

I really know nothing about the Arena floor replacement project, but the same question...is it absolutely necessary? But maybe that ship has already sailed.

Is a bigger increase from PILT a possibility?

As I look at the 2025 budget book, I'm seeing things like \$50,000 for Reception Desk Enclosure. That seems like an astronomical amount for a relatively small project. Are things like this being analyzed? All the little things add up!

Thanks for your consideration!

Boon

Thank you for your email. I appreciate your input. Council will discuss the various levers we have to reduce the tax increase which includes service delivery reduction. I would really appreciate your thoughts on this for example reducing rec center hours from 10 pm to 8 pm. I have no basis for those numbers just wanted to illustrate what a service reduction might be
