Subject: Marina View Development Zoning Bylaw

Dear Mayor and Council,

The West Bay Residents Association is pleased to learn that the proposed Marina View development will see a further commitment to commercial space in the West Bay area.

We would ask that the Marina View zoning be drafted in a similar manner to the West Bay Triangle CD-98 zone with the intention to secure the commercial space while preventing it's conversion to residential space.

Thank you for your consideration.

Carole Witter (President)
West Bay Residents Association
