## **ISSUES:**

### **1. Rationale for Selected Option**

The form of this proposal complies with the 'Medium Density' 'Proposed Land Use Designation' (OCP Schedule B) and is consistent with the policy direction contained within the OCP for medium density residential development except for requiring bonus density. The applicant has addressed the requested density bonus by committing to providing both affordable and special needs housing consistent with the direction contained in the OCP.

The property owner has voluntarily executed and registered a Section 219 covenant on the property, acknowledging that the amenities and the restrictions are in the public interest; and thereby providing that the lands shall not be subdivided, built upon or used (as appropriate to the requirement, as drafted by the Township's solicitor at the applicant's expense) in the absence of all of the following:

- Constructing the building to Step 3 of the BC Energy Step Code.
- Ensuring tree protection for the significant arbutus tree located on the southeast portion of the site.
- Providing amenity spaces as detailed on Sheet D05 of the architectural plans attached as Appendix C to Staff Report DEV-20-083.
- Providing Level 1 Electric Car Charging Stations for not less than 7 parking spaces.
- Providing electrical conduit to the remaining 60 parking spaces to support future Level 1 electric vehicle charging upgrades.
- Providing sufficient power and electrical panel infrastructure to support future electrical vehicle charging upgrades to supply Level 1 charging to the remaining 60 parking spaces.
- Providing electric mobility scooter parking, including charging infrastructure, for not less than 14 mobility scooters.
- Providing electric bicycle parking, including charging infrastructure for not less than 50% of bicycle lock ups.
- Securing 13 Visitor Parking spaces in perpetuity.
- Securing 1 Loading Space in perpetuity.
- Prohibition on the use of natural gas as an energy source for the space heating needs of the building.

On December 7, 2020 reference was made to the inclusion of the following term in the Section 219 Covenant:

- Prohibiting stratification and sale of the units within the building to any person or organization except BC Housing.

Staff note that the registered covenant does not include this clause. Staff understands that, should the need arise, GVHS requires the flexibility to stratify for the purpose of divesting units to BC Housing as part of their funding model. Given that the Greater Victoria Housing Society is an established provider of affordable housing and given that the Housing Agreement requires that all units be affordable rental and may only be occupied by non-owners and given the additional contractual obligations GVHS has to BC Housing, staff agreed that, in this case, this clause was overly restrictive and the risk of not including this clause was already sufficiently managed.
